

ownership in 1997 along the boundary of The Palisade Wilderness Study Area, at a site on the southern edge of the Unaweep Seep Research Natural Area, a 32 acre portion of this property meeting the criteria of the Research Natural Area becomes available for inclusion into this land management designation. This action is compatible with the Grand Junction Resource Area Resource Management Plan (1987). Including the area in the Unaweep Seep Research Natural Area accomplishes a 24 year objective in the Whitewater Management Framework Plan. The addition completes the enclosure of the entire natural feature known as the Unaweep Seep in a protective designation. It extends the conditions contained in 48 FR 23716 (5-26-83) to these additional acres.
